# FOTOINCISIONI photoetched

La sigla "FT" indica la linea di accessori realizzati in metallo col processo della fotoincisione. I collezionisti possono in essa trovare particolari come le cinture di sicurezza, tergicristalli di varie forme e misure, ganci ferma cofano, pedalieri, tappi serbatoio e tutto quello che può servire per migliorare il livello di dettaglio dei propri modelli.

The FT mark indicates the line of accessories produced using the photoengraving process. The collectors may find very special parts in this line, for example, safety belts, windscreen wipers in various forms and sizes, bonnet holding hooks, rubber pedals, tank caps and any other parts that may improve the level of detail of their models.

# PARTICOLARI detail

La serie di particolari denominata "PG" include una linea di accessori come viti, molle, ammortizzatori, fili di nylon e particolari metallici realizzati in tornitura. Sono accessori molto utili per migliorare i modelli industriali sprovvisti dei dettagli più piccoli.

The components range called "PG" includes a line of special accessories, for example screws, springs, shock absorbers, nylon thread and all metal parts produced using the turning process. They are very useful accessories, which have been made to improve the industrial-made models, that are not equipped with small, detailed parts.
